

Amazing Facts About Cats

1. Cats are small carnivorous mammals. They are often called house cats when kept as indoor pets.
2. Cats have retractable claws and sharp teeth, which they use for hunting small prey like mice and birds.
3. A group of cats is called a "clowder," while a group of kittens is called a "kindle."
4. Cats spend about 70% of their lives sleeping. That's around 13-16 hours a day!
5. Unlike dogs, cats do not have a sweet tooth. They cannot taste sugar.
6. A cat's hearing is much more sensitive than a human's or a dog's. They can hear high-frequency sounds that we cannot.
7. Cats communicate by marking trees, fencing, or furniture with their claws or their waste. They also communicate by vocalizing!
8. The average lifespan of an indoor cat is 13 to 17 years.
